**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Katoh et al.

Katoh et al. shows the use of a vehicle seat arrangement having a plurality of air cells (13,15,17,19,21,25) with expandable chambers comprising a fixed array; a controller (37), a fluid supply system and fittings (33) for cutting of one or more of the air cells to conform to the fixed array. Katoh et al. further teaches that the fixed array is part of a modular seating unit including a pump (29), supply hoses (31) and wiring harness as shown in Figure 2.

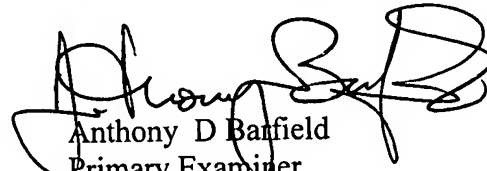

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference No. 6,014,784 shows features of the claimed invention.
